Social Insurance	<p>Compulsory contributory insurance schemes often limited to employees and providing various benefits in cases of illness, old age, unemployment, etc.</p> <p style="text-align: right;">International Social Security Association</p>
Public Assistance	<p>Benefits in cash or in kinds that are financed by the state (national or local) and that are mostly provided on the basis of a means or income tax</p> <p style="text-align: right;">Ginneken, 1999</p>
Social Safety Nets	<p>A government provided anti-poverty benefits –</p> <p style="text-align: right;">International Labor Organization</p>

ISSUES OF POPULATION AGEING

- Malaysia's population is ageing due to increase in life expectancy, changing demographic and family structure.
- Malaysia is forecasted to have an ageing population by 2030 when 15% of population are elderly.
- Inadequacy of savings among the elderly.
- Malaysian household headed by the elderly experienced high incidence of poverty at 22.7% (UNESCAP Report).

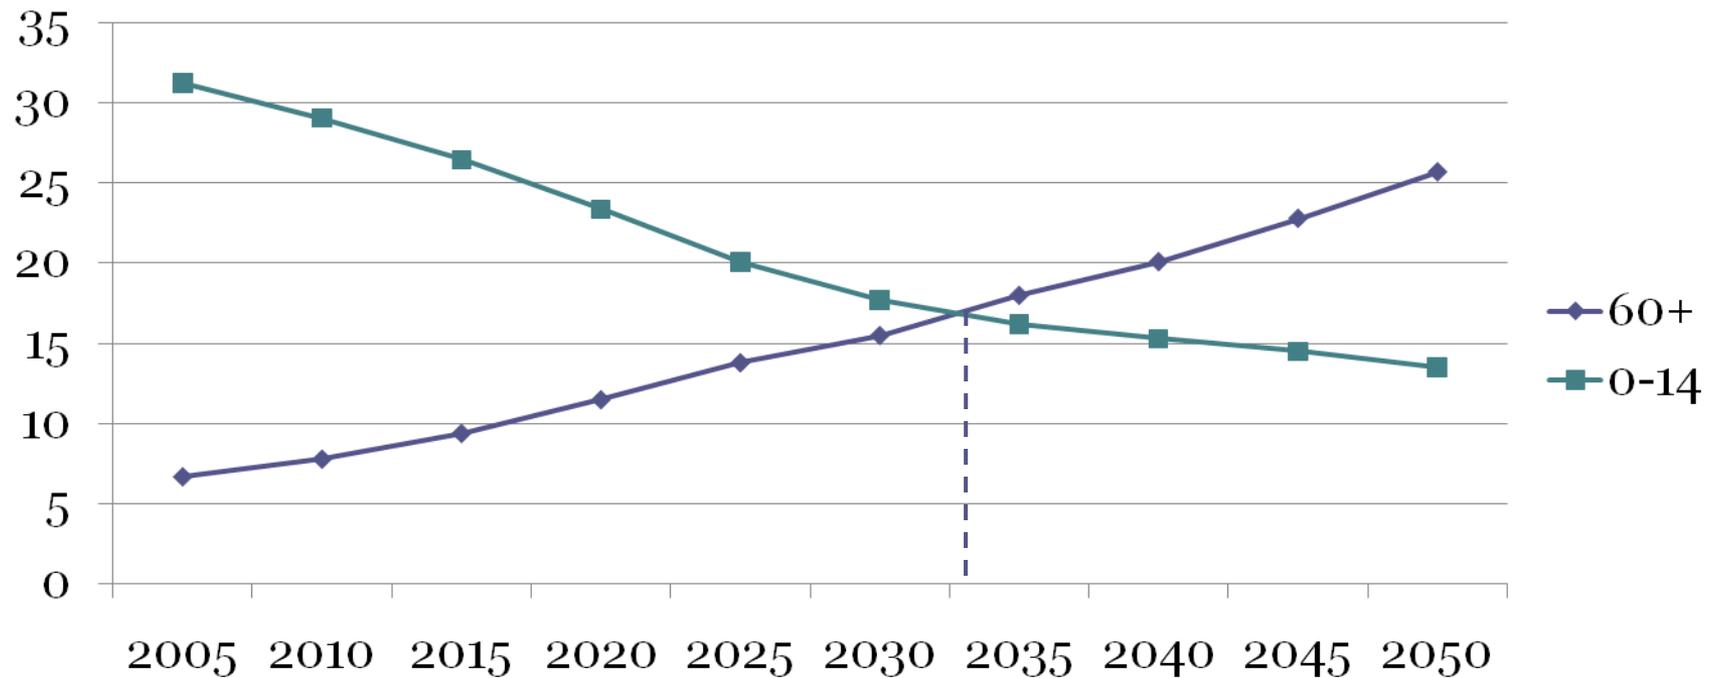

Life expectancy in Malaysia

- Longer life expectancy, but retirement age is from 55 – 60 years.
- Inadequate savings due to shorter period of saving and longer period of spending

Demographic trend in Malaysia

- Malaysia is forecasted to have an ageing population by 2030 when 15% of its population are the elderly.
- Birth rates are declining

POLICY RECOMMENDATIONS

- Affecting behavior on the importance of savings for old age
- Advocacy on compulsory saving
- Formulation of an overarching policy on social protection
- Common user database of the beneficiaries – improve the e-Kasih
- Publicity through popular media on the benefits of saving for old age/provided by various agencies.

- Thank you..
